

HOUSTON MUSEUM
of NATURAL SCIENCE

SHELL EDUCATORS' PREVIEW

APRIL 12, 2025
9:00 A.M. - 11:00 A.M.

AUDUBON'S BIRDS OF AMERICA

Enjoy a rare opportunity to see John James Audubon's *Birds of America*, published as a series between 1827 and 1838. This famous book features life-sized, colorful illustrations of birds and is considered a landmark work in ornithology.

Audubon's Birds of America is produced by the National Museums Scotland in partnership with the Houston Museum of Natural Science.

Lead underwriting is provided by the John P. McGovern Foundation in memory of Kathrine G. McGovern.

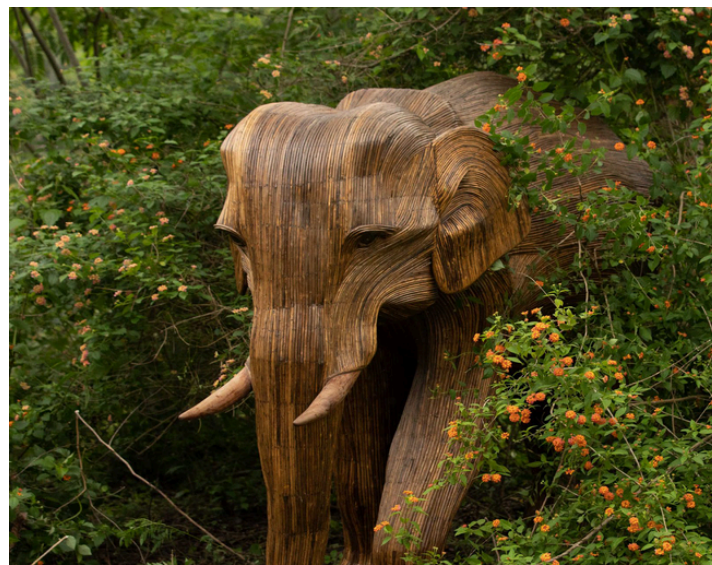

Additional support is provided by Woodforest National Bank.

PERMANENT EXHIBIT HALLS

Utilize HMNS' Family Guide to Explore the Museum's Permanent Exhibit Halls to locate artifacts and specimens throughout the museum.

GREAT ELEPHANT MIGRATION

The Great Elephant Migration, a global fundraising adventure to amplify indigenous knowledge and inspire the human race, to share space is coming to Hermann Park! View the life sized elephants placed around the Museum and throughout the park.
